Immune Monitoring Working Group

Sara Ferrando-Martinez, AstraZeneca
Adam Gehring, Toronto Centre for Liver Disease
Immune Monitoring Working Group

Status Update

Members: Adam Gehring, Sara Ferrando Martinez, Veronica Miller, An De Creus, Eric Donaldson, Takashi Komatsu, Georg Lauer, Kathleen Whitaker, Mala Maini, Andre Boonstra, Robert Fontana, Jessica Weber, Kirsten Richter
**Working Title:** Application of Immunology to Cure Chronic Hepatitis B Virus Infection

**Purpose:** to provide a guide for the incorporation of immunology-based assays in the clinical research setting. The long-term goal is for these techniques and biomarkers to eventually be validated and qualified as prognostic, diagnostic, or used for patient stratification.

**Introduction**
- Adam Gehring, Veronica Miller, Angela Monahan, An De Creus

**Current examples of immunological diagnostics in clinical use**
Veronica Miller, Bob Fontana, Angela Monahan

**Phenotypic analysis**
Andre Boonstra, Georg Lauer, Mala Maini

**Functional analysis**
Adam Gehring, An De Creus, Kirsten Ritcher, Likely Sara Ferrando

**FDA Guidance**
Eric Donaldson, Poonam Mishra, Kathleen Whitaker, Takashi Komatsu
